PROJECT

Project Title: Fire Fighting Robot using raspberry pi and CNN algorithm.

We developed a prototype fire fighting robot , the robot will detect the fire automatically using CNN algorithm and move towards the fire and extinguish the fire automatically and we can control the movement of the robot with web Page manually.

The robot can move automatically by webcam as well as manually by using pre-definee commands in webpage.

INTERNSHIP

Intern on python at "Inventeron technology solution pvt ltd" Bengaluru-karnataka
Project title:"Sales Prediction".
